

Graded lab# 04  
Object oriented programming.  
31/01/2023

Write a C++ program with function(s) that takes input from the user in c-string.

1. Write only lower case alphabets on file.
2. Convert those lower case letters into upper case and display them on the console.
3. Create different functions for reading and displaying.

```
Microsoft Visual Studio Debug Console
Enter text :: welcome to the class of porgramming FUNDAMENTALS
Text is :: WELCOME TO THE CLASS OF PORGRAMMING

C:\Users\afsa\source\repos\fileUpperCase\Debug\fileUpperCase.exe (process 8048) exited with code 0.
To automatically close the console when debugging stops, enable Tools->Options->Debugging->Automatically close the console when debugging stops.
Press any key to close this window . . .
```
